

<<EXAMPLE ONLY>>

A book called Network Marketing in the AI Age, for enthusiastic networkers who are struggling to overcome objections, so they can grow their downline. They see others building automation systems and using AI technology but they don't even know where to start. I will get them from where they are to "a modern day marketer" with as little as an hour a day, in 1 week or less. I have 30 years of experience as a networker with awards at the top of many popular companies in the industry.
